DataStation pocket light 3.0

External 2,5" hard drive with USB 3.0 connector

With the SuperSpeed USB 3.0 connector, the DataStation pocket light 3.0 offers a super fast file transfer. The hard drive is already preformatted and without drive immediately ready for use.

Supported are all major file systems from Windows®, Linux® and Mac® OS X as well as the operating systems Microsoft Windows® 7 / Vista™ / XP / 2000, Mac® OS X from 10.3 and Linux® from Kernel 2.4.x.

Mobile storage
Its handy size of 124,5 x 78 x 12,3 mm makes it the perfect data storage for on the go and with only 228 grams it is also still a real lightweight. Since the TrekStor DataStation pocket light 3.0 gets its power directly via the USB connector, it is independent from an external power supply.

Durable design
The housing made of high-quality aluminium (available in silver or black) does not only bribe through its elegant design. It also ensures optimal heat dissipation and thus guarantees a long lifetime.

The auto-off technology enables modern power management: The 2,5 inch hard drive is put into standby mode, if it is not used for longer than twenty minutes. Therewith the DataStation pocket light 3.0 works efficiently and safely.
